WARNINGS

1

---

**1 page has too much text within the title tag**

1

About this issue: Most search engines truncate titles containing more than 70 characters. Incomplete and shortened titles look unappealing to users and won't entice them to click on your page. For more information, please see this Google article: <https://support.google.com/webmasters/answer/35624>. How to fix: Try to rewrite your page titles to be 70 characters or less.

0 issues with blocked internal resources in robots.txt	0 <input type="radio"/>

0 issues with uncompressed JavaScript and CSS files

0

---

0 issues with uncached JavaScript and CSS files

0

---

0 pages have a JavaScript and CSS total size that is too large

0

---

0 pages use too many JavaScript and CSS files

0

---

0 issues with unminified JavaScript and CSS files

0

**2 subdomains don't support HSTS**

About this issue: HTTP Strict Transport Security (HSTS) informs web browsers that they can communicate with servers only through HTTPS connections. So, to ensure that you don't serve unsecured content to your audience, we recommend that you implement HSTS support. How to fix: Use a server that supports HSTS.

2 **1 outgoing external link contains a nofollow attribute**

About this issue: A nofollow attribute is an element in an <a> tag that tells crawlers not to follow the link. "Nofollow" links don't pass any link juice or anchor texts to referred webpages. The unintentional use of nofollow attributes may have a negative impact on the crawling process and your rankings. How to fix: Make sure you haven't used nofollow attributes by mistake. Remove them from <a> tags, if needed.

1 

0 pages have more than one H1 tag

0 

0 pages are blocked from crawling

0 

URLs on 0 pages are too long

0 

Robots.txt not found

0 

0 pages have hreflang language mismatch issues

0

## Long title element

**i** About this issue: Most search engines truncate titles containing more than 70 characters. Incomplete and shortened titles look unappealing to users and won't entice them to click on your page. For more information, please see this [Google article](https://support.google.com/webmasters/answer/35624): <https://support.google.com/webmasters/answer/35624>. How to fix: Try to rewrite your page titles to be 70 characters or less.

### Historical chart for audits
